

Annual Management Report of Fund Performance

December 31, 2021

Beutel Goodman Global Dividend Fund

Beutel Goodman Global Dividend Fund

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual or interim financial statements of the investment fund. You can get a copy of the annual or interim financial statements at your request at no cost (contact details on this page) or by visiting our website at www.beutelgoodman.com or SEDAR at www.sedar.com.

Security holders may also contact us using one of these methods to request the investment fund's prospectus, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and other similar forward-looking expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and forecasts about future events and are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to be incorrect or to differ materially from those expressed in, or implied by, these forward-looking statements.

These risks, uncertainties and assumptions include, but are not limited to, general economic, political and market factors, domestic and international, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. This list of important factors is not exhaustive. Please consider these and other factors carefully before making any investment decisions and avoid placing undue reliance on forward-looking statements. The Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Beutel Goodman Global Dividend Fund

Management Discussion of Fund Performance

Investment Objectives and Strategies

This Fund seeks to maximize returns by investing in equities offering a high, sustainable yield or high dividend growth rate as well as the potential for capital appreciation.

To achieve its objectives the Fund may invest in equities and short term investments having a term to maturity not exceeding 1 year, and other equivalent securities of Canadian and non-Canadian issuers. Investments in emerging markets will constitute no more than 10% of the Fund's portfolio and there will be a minimum of 20 and a maximum of 50 equity issues held in the portfolio.

Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the year. The risks of investing in this Fund and the suitability of the Fund for investors remain as discussed in the Prospectus.

There were no changes to the Fund's risk rating during the reporting period.

Results of Operations

Over the 12-month period ended December 31, 2021, Beutel Goodman Global Dividend Fund (the "Fund"), Class B returned 7.47% versus 20.78% for the Fund's benchmark, the MSCI World Index (C\$). Unlike the benchmark, the Fund's return is net of fees and expenses paid by the Fund. Please refer to the "Annual Compound Returns" in the Past Performance section for the returns of all classes of the Fund. Detailed performance is provided under the heading "Past Performance" in this report.

Global equity markets remained strong over the period, trading to new record highs. Improved corporate earnings, accelerated vaccine distribution and prolonged central bank stimulus continued to strengthen markets. The latter half of the period saw an increase in volatility, as tapering by central banks around the world – and the promise of tightening in 2022 – coincided with rising geopolitical tensions, a setback in passing U.S. President Biden's Build Back Better bill and, at the end of November, the emergence of the Omicron COVID-19 variant. This surge in cases over the final weeks of the year injected significant uncertainty as to the timing of a full global economic recovery, given the knock-on effects of potential lockdowns on supply chains and inflation. Despite this, equity markets continued to rise in the period with the MSCI World Index (C\$) rising 20.78%. The strongest-performing sectors were Energy, Information Technology and Real Estate. Utilities, Consumer Staples and Communication Services, meanwhile, recorded the weakest performance.

Key Contributors to Performance

- The top-performing sectors during the period relative to the benchmark were Industrials and Utilities.
 - Stock selection in the Industrials sector contributed to the Fund's relative performance.
 - The Fund had no exposure to the Utilities sector over the period. This contributed to the Fund's relative performance, as the sector was an area of weakness in the benchmark.

- Over the period, the largest individual contributors to Fund performance included IMI plc, Atea ASA, Konecranes OYJ, Compagnie Générale des Établissements Michelin SCA and GlaxoSmithKline plc.

Key Detractors from Performance

- From a sector perspective, holdings in the Energy, Communication Services and Consumer Staples sectors were the largest detractors from the Fund's relative performance over the period.
 - Stock selection in the Energy sector detracted from the Fund's relative performance.
 - A combination of both stock selection and overweight positions in the Communication Services and Consumer Staples sectors, both areas of relative weakness in the benchmark, detracted from the Fund's relative performance.
- Over the period, the largest individual detractors from Fund performance included TGS ASA, Campbell Soup Co., BASF SE, Polaris Inc. and Verizon Communications Inc.

Portfolio Activity

- The portfolio management team (the "team") employs a stock selection process that is based on identifying securities trading at a significant discount to their business value. The Fund's sector and stock weights are outcomes of the team's investment decisions based on bottom-up fundamentals and business quality. As a by-product of the team's bottom-up investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the reporting period:
 - The Fund's equity weighting in the U.S. decreased due to relative performance and the team's buy/sell activities. These proceeds were largely reallocated to Fund holdings in Japan, Switzerland and Denmark.
 - The Fund's Health Care, Consumer Staples and Consumer Discretionary weightings increased over the period because of relative performance and the team's buy/sell activities.
 - The Fund's Financials, Communication Services and Materials sector weightings decreased over the period because of relative performance and the team's buy/sell activities.
 - New stock additions to the Fund over the period included Nippon Telegraph and Telephone Corp. and Polaris Inc.
 - Liquidations from the Fund included Ameriprise Financial Inc. and Verizon Communications Inc.
- At period-end, there were 23 equity holdings in the Fund, unchanged from the beginning of the period.
- The Fund's level of cash and cash equivalents decreased from the beginning of the period.

Beutel Goodman Global Dividend Fund

Recent Developments

Performance of the portfolio has seen a dramatic turn over the last few quarters. Mid-year, the portfolio was comfortably keeping pace with a strong market; however, by the end of the year performance, though positive on an absolute basis, was underperforming the benchmark significantly, with most of the negative impact in a two-month period. There are a broad number of factors behind this shift, but the simplest explanation is that our portfolio stood still while the market took off. Much of the underperformance was concentrated over a very short period of time and was driven by a relatively small number of stocks.

While it has been disappointing to see the level of underperformance of the portfolio relative to the benchmark, our process focuses on issues within our control, and we cannot control what happens in the market. We have been steadfast in following our process and we continuously monitor the fundamentals of the companies we hold in our portfolio. We also continue to believe that the market anomalies that have adversely impacted the portfolio's relative performance will ultimately reverse and our focus on long-term company fundamentals and valuation will eventually be recognized by the market.

We continue to remain disciplined and follow our value-oriented investment philosophy, which seeks to identify high-quality businesses that the market is pricing at deep discounts to our calculations of their intrinsic value. As disciplined active managers, we understand that it takes time for our investment thesis to play out and this may mean underperforming in the short term in order to outperform over the long term.

Market Risk 2022

The impact of the coronavirus ("COVID-19") pandemic on the financial performance of the Fund's investments will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions. This public health crisis and the impact of COVID-19 on the financial markets and the overall economy are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy continue to be impacted for an extended period, the Fund's future investment results may be materially adversely affected.

In February 2022, Russian forces invaded Ukraine, resulting in an armed conflict and economic sanctions on Russia. Price volatility, trading restrictions, including the potential for extended halting of Russian market trading, and general default risk has impacted Russian securities and global financial markets. The conflict may contribute to an increase in short-term market volatility. It is uncertain how long the conflict, economic sanctions and market instability will continue and whether they will escalate further. The manager is actively monitoring the situation.

Related Party Transactions

Beutel, Goodman & Company Ltd. ("BG") is the Manager, Trustee and Portfolio Advisor to this Fund. The Fund pays a management fee to BG as compensation for its services. The Fund pays a fixed administration fee to BG, which in turn pays certain operating expenses of the Fund. BG as trustee of the Fund earns a fee which is paid by the Manager from the fixed administration fee paid by the Fund.

The Fund did not rely on any recommendation or approval of its Independent Review Committee to proceed with any transaction involving related parties because it did not conduct any related party transactions, except for certain inter-fund trades and the management and administrative fees as described above, as approved by the Independent Review Committee by standing instructions, and subject to regulatory requirements.

Management Fees: As Manager, BG is paid a management fee from each class of the Fund based on the average daily net asset value of the particular class. The fee is payable monthly, in arrears, and is calculated at the annualized rate specified for each class of the Fund as set out in the table below. Management fees for Class I units are negotiated and paid directly by the investor, not by the Fund, and, therefore, are not listed.

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate %	Dealer Compensation %	General Administration, Investment Advice and Profit %
Class B	1.90	54	46
Class F	1.00	0	100

Administration Fee: The Manager receives a fixed administration fee to pay certain operating expenses of the Fund. These expenses include audit and legal fees; custodian and transfer agent fees; costs attributable to the issue, redemption and change of units, including the cost of the security holder record-keeping system; expenses incurred in respect of preparing and distributing all regulatory reports; fund accounting and valuation costs; independent review committee fees and filing fees, including those incurred by us. The administration fee may vary by class of units and by Fund.

BG, as trustee of the Fund, earns a fee which is paid by the Manager from the administration fee paid by the Fund.

Beutel Goodman Global Dividend Fund

- (1) Net asset value per unit and distributions to unitholders per unit are based on the actual number of units outstanding for the relevant class at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding for the relevant class over the fiscal year.
- (2) Distributions were paid in cash or automatically reinvested in additional units of the Fund.
- (3) This is not a reconciliation of the beginning and ending net assets per unit.
- (4) This information is provided as at year end of the year shown.
- (5) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average net asset value during the year.
- (6) The Manager may have waived or absorbed some of the fund expenses. If this had occurred, the management fee ratio before any such waiver or absorption is listed. The Manager may terminate the waiver or absorption at any time, at its discretion. It is not known when such waivers or absorptions will be terminated.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate equals the lesser of the costs of purchases and proceeds of sales of portfolio securities for the year divided by the average value of the portfolio securities of the Fund calculated on a monthly basis, excluding short-term securities.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs disclosed in the Statements of Comprehensive Income expressed as an annualized percentage of daily average net asset value of the Fund during the year.

Past Performance

The performance returns below:

- are calculated as of **December 31** in each year;
- assume **all distributions** made by the Fund **are reinvested** to purchase additional units; and
- show the returns of the particular class of the Fund after any applicable management fees and operating expenses have been deducted, **but are not reduced by any redemption charges, optional charges or income taxes payable by you that would have reduced returns on performance.**

Please remember that the past performance of the Fund is not an accurate prediction of future returns.

Beutel Goodman Global Dividend Fund

Year-by-Year Returns

The bar chart indicates the Fund's annual performance for each of the year's shown and illustrates how the Fund's performance has changed from year to year. The bar chart shows in percentage terms how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Class B

Class F

Class I

Annual Compound Returns

The following table shows the Fund's historical annual compound total returns for each of the periods indicated ended on December 31, 2021, as compared to the performance of the MSCI World Index (C\$).*

Class B

	10 Years (%)	5 Years (%)	3 Years (%)	Past Year (%)
Beutel Goodman Global Dividend Fund	9.83	7.26	9.52	7.47
MSCI World Index (C\$)	15.16	13.62	18.57	20.78

Class F

	10 Years (%)	5 Years (%)	3 Years (%)	Past Year (%)
Beutel Goodman Global Dividend Fund	10.89	8.26	10.55	8.44
MSCI World Index (C\$)	15.16	13.62	18.57	20.78

Class I

	10 Years (%)	5 Years (%)	3 Years (%)	Past Year (%)
Beutel Goodman Global Dividend Fund	12.21	9.55	11.86	9.73
MSCI World Index (C\$)	15.16	13.62	18.57	20.78

The Fund was not a reporting issuer for the period since its inception of December 1, 2007 to August 13, 2010. The expenses of the Fund would have been higher during such period had the Fund been subject to the additional regulatory requirements applicable to a reporting issuer. The financial statements of the Fund for such period are available to Class I investors upon request.

* The MSCI World Index (C\$) is designed to represent the global equity market.

A discussion of the relative performance of the Fund is under the Results of Operations section of this report.
